- Team development for work and project teams
- “Train the trainer” seminars
- Executive coaching
- Designing change processes for organizations

A few useful principles

On professionalism ...

Set your standards high and keep them high!

On change ...

To get new answers, you have to ask new questions.

On not losing touch with reality ...

Grant me
the serenity to accept the things I cannot change
the courage to change the things I can, and
the wisdom to know the difference.

On personal responsibility ...

You are responsible for the things you did not do when you would have been the right person to do them.

On personality ...

The key to a successful personal and professional life is to always be yourself rather than what others expect you to be.
